

Syllabus Master Document

Amity University Jharkhand

1. Introduction to Curriculum and Syllabus

Amity University Jharkhand follows an industry-oriented curriculum designed to provide theoretical knowledge, practical exposure, research opportunities, technical expertise, and professional development.

The syllabus is structured according to semester-based academic systems and includes classroom teaching, laboratory work, projects, internships, workshops, and skill development activities.

The curriculum is regularly updated to match industry trends and emerging technologies.

Keywords:

syllabus, curriculum, course structure, academic subjects

2. Programs and Course Structure

The university offers syllabus and curriculum for various undergraduate, postgraduate, and doctoral programs.

Undergraduate Programs

- B.Tech
- BCA
- BBA
- BA
- BALLB
- B.Com
- B.Sc

Postgraduate Programs

- MCA
- MBA

- M.Tech
- MA
- M.Com
- M.Sc

Doctoral Programs

- PhD Programs

Keywords:

course structure, program curriculum, semester syllabus

3. B.Tech Syllabus

The B.Tech curriculum includes:

- Programming Languages
- Data Structures
- Artificial Intelligence
- Database Management Systems
- Operating Systems
- Computer Networks
- Software Engineering
- Machine Learning
- Cloud Computing
- Cyber Security

Engineering students also participate in laboratory sessions, projects, internships, and industrial training.

Keywords:

B.Tech syllabus, engineering subjects, computer science syllabus

4. BCA Syllabus

The BCA syllabus focuses on computer applications, programming, software development, and IT fundamentals.

Subjects May Include:

- C Programming
- Python Programming
- Java Programming
- Web Development
- Data Structures
- Database Management Systems
- Computer Networks
- Operating Systems
- Software Engineering
- Cloud Computing

Students also complete practical labs, mini projects, and major projects.

Keywords:

BCA syllabus, BCA subjects, programming languages

5. MCA Syllabus

The MCA curriculum provides advanced knowledge in computer applications and software technologies.

Subjects Include:

- Advanced Java
- Python Programming
- Artificial Intelligence
- Machine Learning
- Data Analytics
- Mobile Application Development

- Web Technologies
- Data Science
- Software Testing
- Cloud Computing

Keywords:

MCA syllabus, MCA curriculum, advanced programming

6. MBA Syllabus

The MBA curriculum focuses on management, leadership, business operations, and corporate skills.

Specializations May Include:

- Marketing
- Finance
- Human Resource Management
- Business Analytics
- Operations Management
- International Business

Subjects Include:

- Business Communication
- Financial Management
- Marketing Management
- Human Resource Management
- Business Strategy
- Entrepreneurship

Keywords:

MBA syllabus, management subjects, MBA specialization

7. BALLB Syllabus

The BALLB curriculum combines law and legal studies with practical legal training.

Subjects Include:

- Constitutional Law
- Criminal Law
- Contract Law
- Corporate Law
- Family Law
- Cyber Law
- Legal Research
- Moot Court Training

Keywords:

BALLB syllabus, law subjects, legal studies

8. BA and Other Humanities Programs

Arts and humanities programs may include:

- Political Science
- English Literature
- Sociology
- Psychology
- History
- Economics

Keywords:

BA syllabus, humanities subjects

9. Semester-wise Structure

The syllabus is generally divided semester-wise and includes:

- Theory Subjects
- Practical Sessions
- Laboratory Work
- Internal Assessments
- Projects
- Assignments

Each semester may include core subjects and elective subjects.

Keywords:

semester-wise syllabus, semester subjects

10. Credit System

The university may follow a credit-based academic system.

Credits are assigned according to:

- Theory Classes
- Laboratory Work
- Practical Sessions
- Projects
- Internships

Keywords:

credit system, academic credits

11. Elective Subjects

Students may choose elective subjects according to specialization and academic interests.

Elective areas may include:

- Artificial Intelligence
- Data Science
- Cyber Security

- Digital Marketing
- Business Analytics
- Intellectual Property Rights

Keywords:

elective subjects, specialization electives

12. Practical and Laboratory Work

Programs include:

- Computer Labs
- Technical Workshops
- Practical Training
- Project Development
- Research Activities

Practical exposure helps students develop technical and professional skills.

Keywords:

practical work, laboratory sessions, project training

13. Projects and Internships

Students may complete:

- Mini Projects
- Major Projects
- Industry Projects
- Summer Internships
- Dissertation Work

Projects and internships provide industry exposure and practical experience.

Keywords:

projects, internships, industrial training

14. Research and Innovation

The university encourages:

- Research Activities
- Innovation Projects
- Technical Competitions
- Hackathons
- Publications

Students are motivated to participate in emerging technology and innovation programs.

Keywords:

research, innovation, hackathon, technical project

15. Frequently Asked Questions (FAQs)

Q. What subjects are included in the BCA syllabus?

A. BCA subjects include programming languages, database management, web development, operating systems, software engineering, and networking.

Q. Does the MBA program provide specialization options?

A. Yes, MBA students may choose specializations such as marketing, finance, HR, and business analytics.

Q. Are practical labs included in technical programs?

A. Yes, practical laboratory sessions and projects are important components of technical courses.

Q. Does the university include internships in the curriculum?

A. Yes, internships and industrial training are encouraged across multiple programs.

Q. Are elective subjects available?

A. Yes, elective subjects are available depending on the program and specialization.

Q. Is the syllabus semester-wise?

A. Yes, the university follows a semester-based curriculum structure.

Keywords:

syllabus FAQs, curriculum questions, semester queries
